Urgent Care Summary Screen

Easy view banner gives key identifiable data for the patient including name, DOB, NHS number

A new feature to show when the plan was last modified and that the information provided is relevant and current

Alerts will house key information that will help you make a rapid assessment of the patient and highlight any risk factors or potential danger to attending staff

Home Access provides useful information on the living status of the patient including accommodation and carer details

Preferences provides a snapshot of where the patient would like to be cared for and their preferred place of death

Quick link icons of information below including DNR, allergy, alerts and home access

Clearly relays the resuscitation status of the patient and informs you if the patient is for DNACPR

Significant Diagnoses gives you the primary condition the patient is receiving care for

The Ceiling of Treatment allows you to understand the appropriate level of medical management

This urgent care screen presents key information that will be needed in an emergency situation. The full CMC care plan is always available to access for further background
